Aquitas Announces Expansion of Connected Maintenance Portfolio to Include Multiple Industrial IoT & AR Offerings
Company launches a portfolio of solutions targeted to extend maintenance best practices and enable digital transformation

August 18, 2020

ROSWELL, Ga. – Aquitas Solutions, a leading provider of Enterprise Asset Management (EAM) and IoT solutions that optimize asset intensive industries, announced today that they have expanded their Connected Maintenance solution to include a variety of industry-leading Industrial IoT & Augmented Reality offerings. While Connected Maintenance previously referred to the Company's award-winning integrated IIoT solution leveraging PTC's ThingWorx and IBM's Maximo, Connected Maintenance will now include a portfolio of solutions available through new or expanded strategic partnerships with companies like Arrow Electronics, Everactive, IBM and PTC. The new Connected Maintenance portfolio includes solutions that extend current maintenance best practices while leveraging existing assets, sensors and systems along with new technologies.

"Our team evaluated the diverse business needs of maintenance organizations across industries to identify the most valuable and scalable technologies," commented Jeff Brown, CEO of Aquitas Solutions. He added, "Our goal is to become a one-stop shop for any customer looking to improve operations by leveraging real-time asset information to drive action. Our solution portfolio enables us to support every phase of the digital transformation journey while complementing the capabilities of Maximo."

"Virtually every organization is focused on this idea of improving asset performance and reliability while reducing costs," commented Maddy Hawkins, Director of IoT & AR Sales at Aquitas Solutions. She added, "This new portfolio of Connected Maintenance solutions aims to simplify or solve specific and common operational challenges and industry requirements that will help our customers save time, money and resources."

Aquitas is excited to continue trailblazing the improvement of maintenance operations and educating the market of the value that IoT and AR can bring when paired with IBM Maximo. To read more about these solutions and partnerships, visit the Aquitas website, and if you are interested in learning more, contact Maddy Hawkins for a demo.

About Aquitas Solutions

Aquitas Solutions is a provider of Enterprise Asset Management (EAM) and maintenance solutions for asset-intensive companies across all industries. Through an established network of strategic partnerships, we are uniquely positioned to support customers in their digital transformation endeavors. Our Connected Maintenance portfolio is comprised of Maximo, IoT and Augmented Reality technologies that advance current maintenance practices while leveraging existing systems.

Based in Atlanta, GA, Aquitas' leadership team and management consultants have industry leading enterprise asset management experience helping clients leverage their EAM system to optimize performance and improve productivity and service levels across the entire spectrum of their organization.
